THE PITCH

Note: The controls below correspond to the Classic Analog Dribble configuration.

✯ Once you have created your profile (see *Your Profile* on p. 11), select MY FIFA 08 > GAME SETTINGS > CONTROLS to select Classic or New, Analog, Digital or Combined controls.

AUTO SWITCH

When defending, Auto Switch automatically switches your control to the player nearest the ball. Select MY FIFA 08 > GAME SETTINGS> GAME OPTIONS to adjust how quickly this switching takes place.

SHOOTING

Finesse shot	L button+○ button
Chip shot	○ button+tap L button (while power bar fills)

COACHING TIP: THROUGH BALL

Use the through ball to guide a pass into space for a team-mate to run on to.

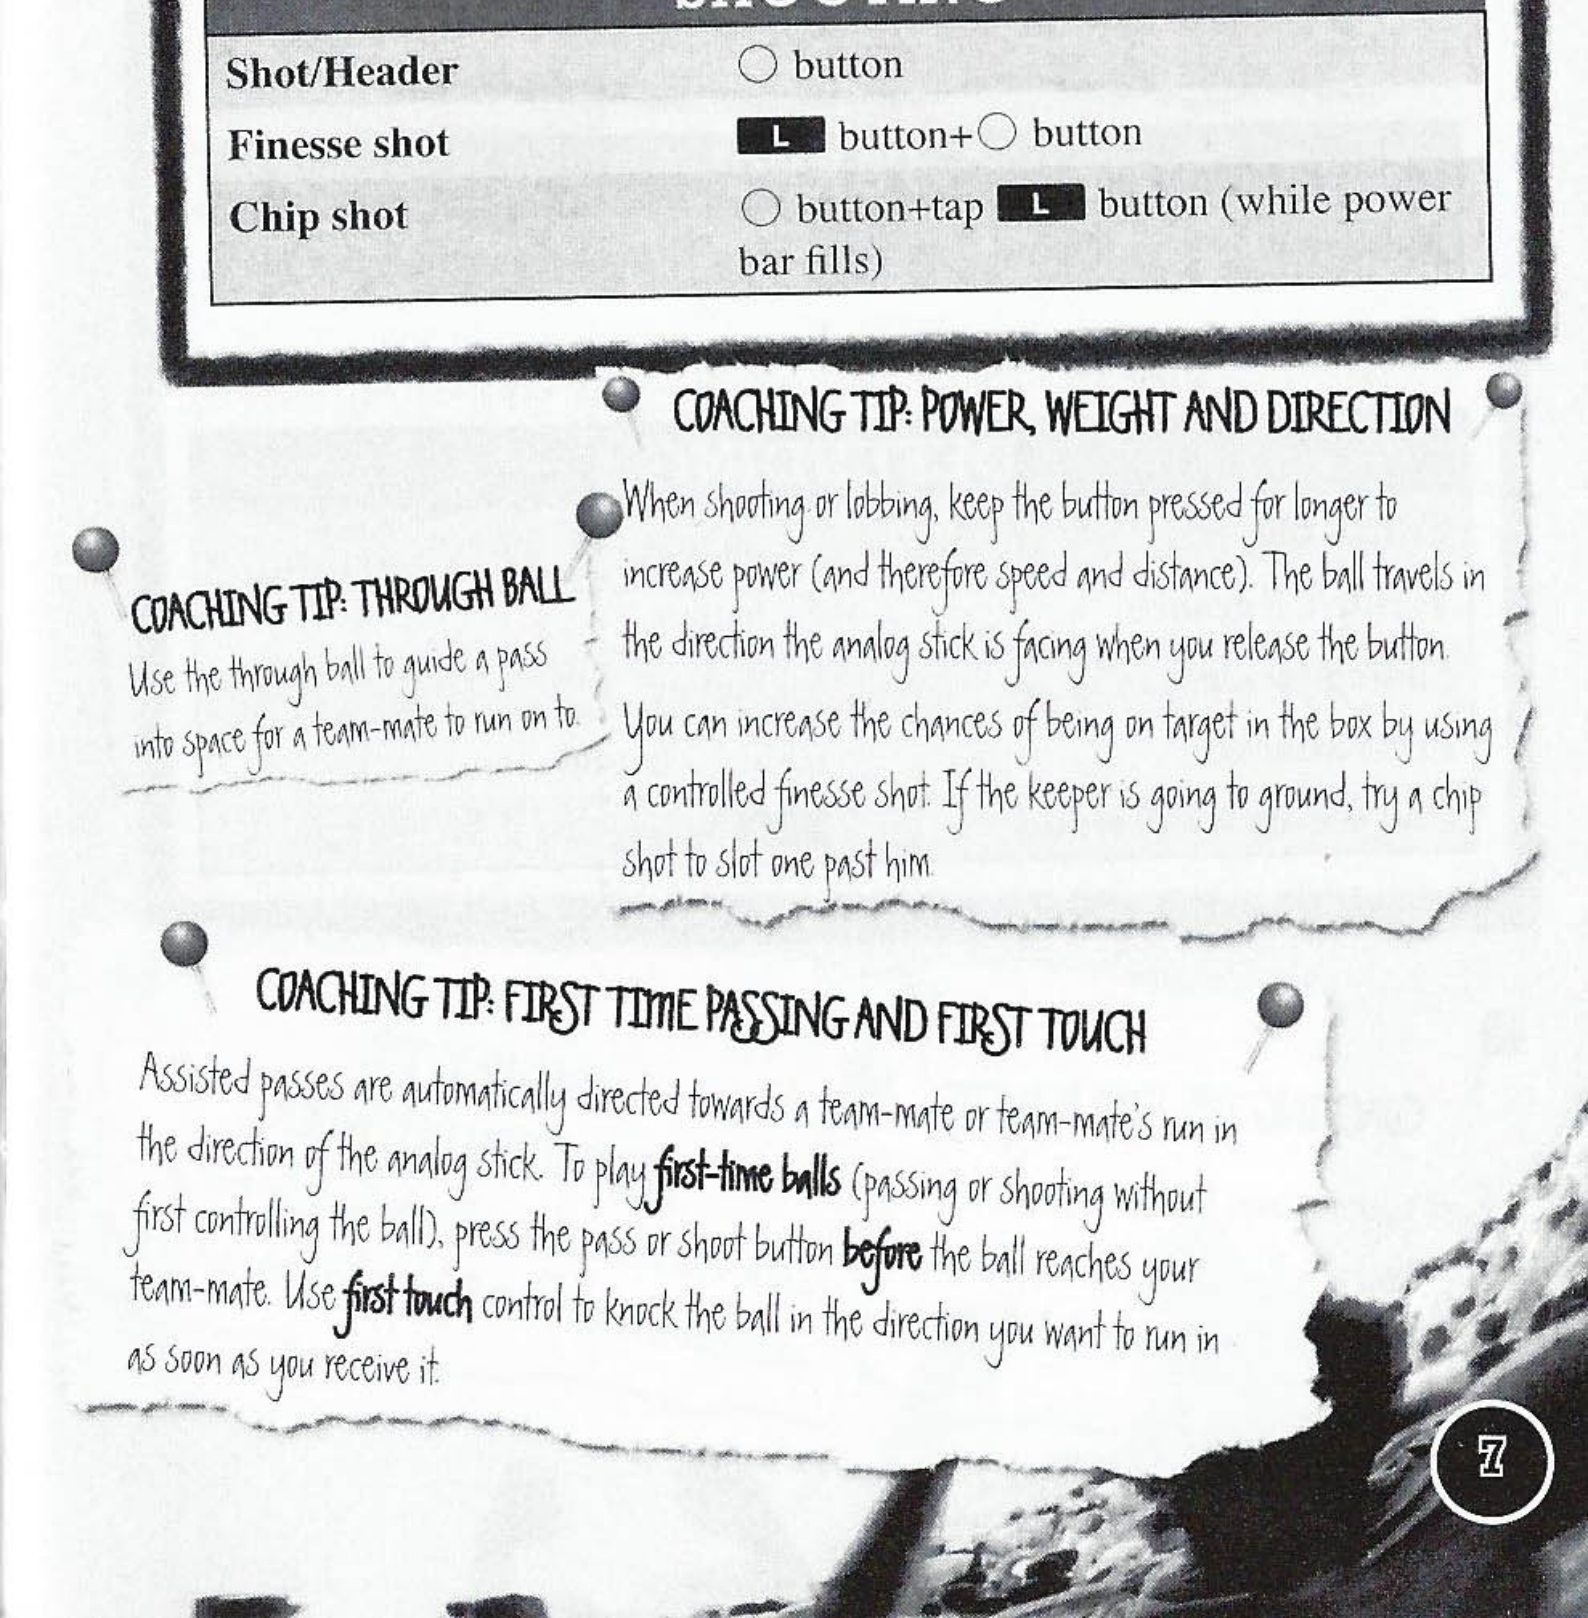
COACHING TIP: POWER, WEIGHT AND DIRECTION

When shooting or lobbing, keep the button pressed for longer to increase power (and therefore speed and distance). The ball travels in the direction the analog stick is facing when you release the button.

You can increase the chances of being on target in the box by using a controlled finesse shot. If the keeper is going to ground, try a chip shot to slot one past him.

COACHING TIP: FIRST TIME PASSING AND FIRST TOUCH

Assisted passes are automatically directed towards a team-mate or team-mate's run in the direction of the analog stick. To play **first-time balls** (passing or shooting without first controlling the ball), press the pass or shoot button **before** the ball reaches your team-mate. Use **first touch** control to knock the ball in the direction you want to run in as soon as you receive it.



TRICKS

Press the L button in combination with the analog stick to showcase your ball control and leave your marker behind.

Note: ↑ represents the direction the player is travelling.

COACHING TIP: DRIBBLING

The faster you run, the harder it is to take or keep control of the ball. Balance pace with the need for control.

Enable **pace control** to dribble with the ball closer to your feet and under greater control. This decreases the chance of a defender stealing the ball.

When the ball is loose in the box or you want your keeper to challenge for the ball, use the goalkeeper charge.

6 If you don't pass to a team-mate within six seconds, your keeper will take a dangerously unguided kick up-field.

COACHING TIP: KEEPER QUALITY

The difficulty level of the game decides how good your keeper is (for both multiplayer and single player).

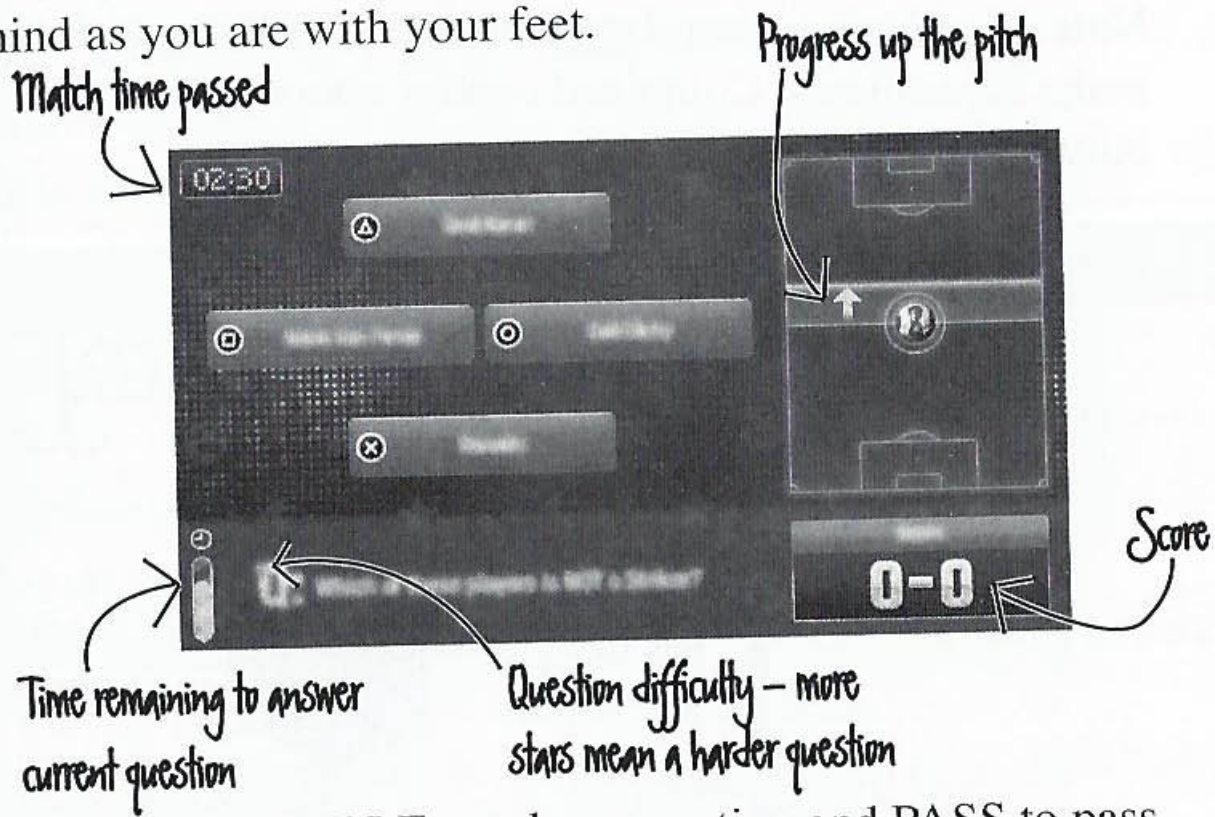
OFF THE PITCH

NEW FOOTBALL IQ

Show how much you know about your team, your league and your nation's talent and prove you're as skilled with your mind as you are with your feet.



1. Select DRIBBLE to take a question and PASS to pass the ball and get a new question.
2. Select the button corresponding to your chosen answer on screen. If you get the answer wrong, the opposition will take control of the ball and move it closer to your goal. Answer a question correctly to boot the ball up the pitch towards the opposition's goal.
3. When you're close enough to the goal, you can try to score. This consists of two questions in a row – one to shoot and one to get it past the keeper. The difficulty of the questions depends on the level of knowledge you display.

★ The Football IQ screen shows your recent results and current IQ – improve your results to increase your IQ.

Local Games questions are all about your team and the league they're in, the National Cup focuses on the country your team is from and International Championships cover the whole of world football. Friendly Matches are like Local Games but you can choose to centre the questions around any team. You'll also earn points to spend at the MY FIFA 08 Store.

Note: You cannot pause in the middle of a question. Press the START button at any time and the pause icon appears in the top left of the screen. The game will pause once you reach the end of the current question.

COACHING TIP:

Passes go to open team-mates who are likely to be behind you, so passing a lot moves the ball slowly back towards your own goal.

NEW INTERACTIVE LEAGUES

Change history for your team, even as it's being made! Take on fans of the opposition in games that are identical to real-life matches and decide who is the most dedicated supporter of their side.

1. Choose one club per league to represent online. Less supported clubs have more opponents to match up against, giving you more opportunities to play.
2. To play a fixture, select PLAY SELECTED FIXTURE on the Interactive Leagues main menu. Otherwise, select FIXTURE LIST from the Interactive Leagues main menu and select the game you want to play.

   Note: If the score is level after 90 minutes, the match ends in a draw.
3. Select INCLUDE RIVAL FIXTURE to play against your club's rivals or for the opportunity to play as the opponent of one of your club's rivals – after all, your enemy's enemy is your friend.

☆ Select TOP CLUB PLAYERS from the Interactive Leagues main menu to see the contribution made by the top 100 players on your club's leaderboard. Select CHANGE CLUBS from the Interactive Leagues main menu to switch clubs within a league. You can do this just once a season.

Note: Only matches played in Interactive Leagues mode influence these tables.

SCORING

There is one overall cross-platform table for each supported league. Every time you win an Interactive Leagues match, it counts as one vote for your club in the fixture. Play as many matches as you can during a playing window of a couple of days leading up to a real match. When the play window for the fixture closes, the club with the most votes gets the victory and three points in the table.

NEW

CUSTOM FORMATIONS

Create your own formations and pile all your players forward into attack or concentrate their efforts on keeping the opposition away from your goal. Your tactical decisions before kick off could decide whether the next game is a humiliating defeat or a glorious victory.

Access Custom Formations from the main menu by selecting MY FIFA 08 > TEAM MANAGEMENT > CUSTOM FORMATION.

1. Select an empty slot, then a formation to use as your base.
2. Select a player. The green box shows the area that they cover in their current position – if green boxes overlap, that area is well covered.
3. Reposition them with the analog stick. If you move them outside of their green box they'll be in a new position and you can assign a new role to them from the list. You cannot place them in a position that's already occupied. Press the △ button to return them to their original position.

   Note: The player's colour changes according to which third of the pitch he's in – red for strikers, green for midfielders, blue for defenders and yellow for goalkeepers.
4. Decide where your player will run during attacks. Select a player, use the analog stick to choose a direction and press the ✕ button. You can assign up to two directions to each player.
5. Assign defensive runs in the same way as attacking runs.
6. Name your custom formation and press the START button. Select the team you wish to assign this formation to as their default and select SAVE AND EXIT.

   Note: Custom formations will only be saved if the autosave feature is turned on (see Saving on p. 22).

OUT OF THE TUNNEL

KICK-OFF

Get straight out onto the pitch and take on any club or country in the game.

TEAM STAR RATING AND CHEMISTRY

Your team's Star Rating indicates its overall ability. To improve it, buy or loan in better players and ensure they play in their best positions.

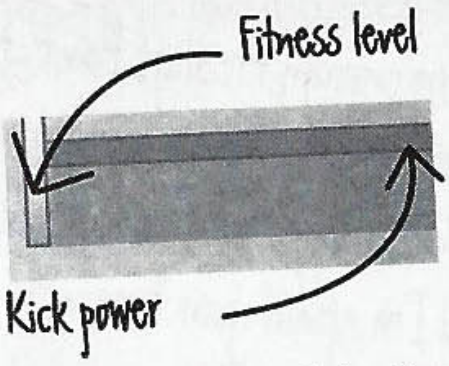
Your team chemistry shows how well your team works together on the pitch. A team with good chemistry starts the game with more momentum. Improve it by increasing team morale, experience, victories and making players more satisfied with their contracts.

STARTING 11

1. To alter your team, select a player from the starting 11 or the bench (press the □ button to move between the Starting 11 screen and the Substitutions screen).
2. Select another player to swap them with.

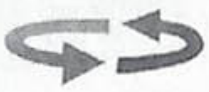
COACHING TIP: Players play at their best in their favourite position. Check a player's overall rating (OVR) against his efficiency in his currently assigned position (EFF).

PLAYER STATUS BAR



A player's fitness level (and speed) decreases the more he sprints (hold the R button), but replenishes when he moves at normal pace.

SUBSTITUTION



When the substitution icon appears beside a player's name, he's flagging or just having a nightmare and you'd be well advised to sub him off.

MOMENTUM

When the momentum is with your team, their overall performance and scoring ability is boosted. Goals and shots on target build momentum but with fewer attacks you slowly lose momentum.

INSTANT REPLAY

* Press START to enter the Pause menu and select INSTANT REPLAY to watch the last few moments of play.

FIFA 08 MANAGER MODE

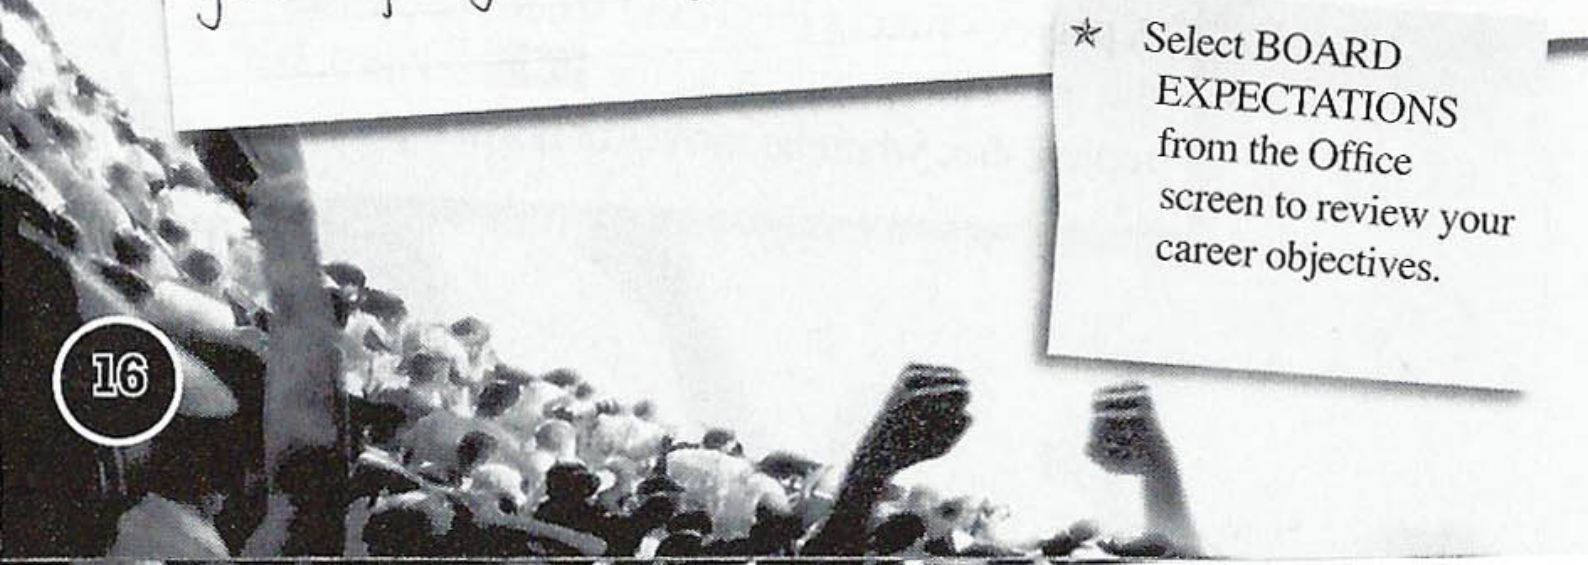
Think beyond the 90 minutes. Welcome to your career in football management.

FROM THE CHAIRMAN

Make the right decisions to get the best out of the lads over fifteen seasons and meet the board's Season Objectives. Stay within your budget, check the newspapers for transfer news and the scrolling ticker at the bottom of the screen for league information. Remember the importance of team chemistry , fan support , player contracts and job security . They could make or break you as a manager.

Also, make sure you earn enough Prestige Points to improve your prestige level and make us more attractive to sponsors and talented players. The formula's simple: win games and meet objectives to increase your prestige; lose games, you'll lose prestige and I'm afraid your time with us may have to come to an end.

* Select BOARD EXPECTATIONS from the Office screen to review your career objectives.



HELP AND FIFA 08 FAQ

During a match, press START to enter the Pause menu and select FIFA 08 FAQ for information on essential game modes, features, icons and advice.

- ✯ Press SELECT on a menu screen to access help with a feature.

PLAYER GROWTH

FRIENDLIES

When you start your career, you can schedule four pre-match friendly games.

TRAINING

You can schedule sessions at the training ground on any day when you're not playing a match. Focus your training on strikers, midfielders, defenders or goalkeepers but don't overdo it or you'll tire them out. The higher the average coaching level for each of your coaching staff (ST, MF, DF, GK), the more efficient the training will be and the quicker your players will improve.

SIMULATE MATCH

In both Manager and Tournament modes, you can opt to simulate a match.

- ✯ Select QUICK SIM to resolve a match quickly, without your input.
- ✯ Select VISUAL SIM to resolve a match with the option to intervene and call the shots from the touchline: you can access Team Management, view line-ups or even choose to play the match as normal at any time.

  Note: You cannot return to a simulated match once you've chosen to intervene.

APPROACH FOR A PLAYER

When another team puts an offer in for one of your players, you have three options:

✔ Accept the offer ↑ Raise the offer ✖ Decline the offer

Depending on your response, further negotiations may be necessary.

COACHING TIP: Players of lower ability improve faster and more easily than skilled players. However, all players' fatigue levels increase with training.

OTHER GAME MODES

TOURNAMENT

Take on any tournament or customise your own. Right after a match, you can review other fixture highlights from the Results screen.
